Injured by the Negligence of Someone Else?

When you or someone you love is injured, life changes forever, and recovery may be long and difficult. Whether a motorcycle accident or traumatic brain injury, you want knowledgeable, experienced attorneys on your side building a strong case to protect your interests.

Fatal Motorcycle Accidents on the Rise

Statistics on the risk of American motorcycle riding tell a sobering story. According to the National Highway Traffic Safety Administration (NHTSA), the number of fatal motorcycle accidents has risen 50% since the late 1990s—a far more substantial increase than the corresponding numbers for wrongful death victims in car accidents. Aside from the very real possibility of death in a motorcycle accident, these incidents are among the most common causes of traumatic brain injuries—an area of focus for our law firm.

We Provide Seasoned Representation for Motorcycle Accident Cases

When motorcycle accidents do occur, the resulting litigation involves particular complexity—not to mention the inherent suffering and sorrow among the affected parties. These cases often involve serious injuries or wrongful death, thus requiring the expertise of accident reconstructionists, medical professionals, and analysts. Rosen Hagood's motorcycle accident attorneys are well prepared to handle the intricate details and emotional challenges of motorcycle accident cases.

South Carolina Motorcycle Accident Attorney
